

INDUSTRY

ROAD CONSTRUCTION MACHINERY, CONCRETE INDUSTRY

We offer a wide range of parts with high abrasion resistance for concrete and minerals markets. From compactor scrapers to molding parts for the concrete industry, we supply the products you need.

SPECIAL MACHINES

Whether it is for robotics, assembly lines or logistics equipment, polyurethane will meet your requirements.

CUSTOM MADE PRODUCTS

Our design office and R&D department can assist you to optimize your design.

YOUR BUSINESS

**RENTAL COMPANY, CONCRETE INDUSTRY,
ENGINEERING, R&D, FACTORY MANAGER**

MULTIPLE PRODUCTS

Sand Finisher

Same functionality as a snow grooming finisher, this part is installed on beach cleaning equipment.

Anti-rotation mounting plate

Design and manufacture of custom made subassembly for an ultrasonic medical equipment.

Star screen

Spare parts for star screen machinery to sort out organic waste or minerals. Formulations can be adjusted to your requirements.

Hydrocyclone

Designed to sort water from sand, this part is manufactured 100% in a water-resistant polyurethane formulation.

Polyurethane technical features

- Abrasion resistance
- Shock absorption
- Noise reduction
- Tearing resistance
- Chemical products and UV resistance
